INDEX TO THE ADVANCEMENT OF SCIENCE

Volume XX, Nos. 83-88, 1963-64

Figures in heavy type preceding page references indicate the parts of *The Advancement of Science* in which references will be found. Titles marked with an asterisk (*) appear only in summary form in the record of Sectional Transactions at the Aberdeen Meeting (**87**, 440–482) Titles of communications are frequently abbreviated.

Aberdeen university, W. S. Angus, **84**, 141
Aeroplane, future of, in civil and military fields, Dr. S. G. Hooker, **83**, 219, **87**, 458
Agriculture, future of in the national economy, W. J. Thomas, **83**, 13
AHRENS, Prof. L. H., Statistical nature of element distributions in igneous rocks, **87**, 448*
AITKEN, A. J., Scots tongue: completing the record of Scots, **87**, 461*
AITKEN, P. L., Hydro-electric development in Scotland, **87**, 453*
ALLAN, W. H., Fluid flow around fish, **87**, 442*
ANDERSON, Dr. S. G., Immunological aspects of pregnancy, **87**, 464*
ANGUS, W. S., University of Aberdeen, **84**, 141
Argillaceous rocks, mineralogy of, G. Downie, R. C. Mackenzie, B. D. and W. A. Mitchell, **87**, 447*
Arid environments, H. Bowen-Jones, W. B. Fisher, R. L. Heathcote and E. Sunderland, **87**, 455*
ARNOTT, Dr. Struther, Diffraction studies of biological molecules, **87**, 444*
ASHBY, Sir Eric, Investment in man, **85**, 203
ATKINSON, J. R., Recent advances in techniques of irradiation damage experiments, **87**, 441*
AUDLEY, Dr. R. J., Perception, **87**, 467*
AYER, Prof. A. J., On making philosophy intelligible, **87**, 406

BAINBRIDGE, V., Tropical fisheries resources, **87**, 451*
BAIRD, Sir Dugald, Medical sociology: introduction, **87**, 476*
physiology of pregnancy: introduction, **87**, 464*
BAXTER, S., Expanded polymers, **87**, 444*
BECKETT, Alan, Free radicals, **84**, 143
Beef industry, value of contrasting feeding systems in, T. L. Dodsworth, Maitland Mackie, Jr., T. R. Preston and W. F. Raymond, **87**, 474*
Behaviour, brain and, *see* **87**, 466*
drugs and, *see* **87**, 466*
BENN, Sir John, Finance for technical development in the United Kingdom, **87**, 457*
BERNSTEIN, Dr. B. B., Social class, speech systems and psychotherapy, **87**, 477*
BERTRAM, Dr. C. K. Ricardo, Manatees: their ecology and conservation, **87**, 450*
BERTRAM, Dr. G. C. L., Manatees: their ecology and conservation, **87**, 450*
BLACKETT, Prof. P. M. S., Universities and the nation's crisis, **87**, 379
BLOXAM, Dr. T. W., Geochemistry of carboniferous shales from S. Wales coalfield, **87**, 449*
BOND, Dr. G., Root nodules and their biological significance, **87**, 468*
BONNER, J., Planning and a wages policy, **83**, 81
BOOKS:
for the general reader, N.B.L. list, **83**, 97, **84**, 173, **85**, 279, **87**, 437, **88**, 592
BOOTE, R. E., Field biology in education, **87**, 452*
Botanist, the work of, Prof. Sir Joseph Hutchinson, **83**, 78
BOWEN-JONES, H., Ecological and economic aspects of a dominant nomadic ethos, **87**, 455*
BOWIE, S. H. U., Uranium-thorium-lead-isotope ratios as an aid to mineral exploration, **87**, 446*
BOYD, Prof. R. L. F., Electronic instruments for rockets and satellites, **87**, 440*
Brain and behaviour, A. Cowey, L. J. Herberg and M. Williams, **87**, 466*,
cerebral localisation of psychological function, O. L. Zangwill, **86**, 335, **87**, 466
BRAIN, Lord, a profile, **85**, 277
British Association Annual Report, 1962–63, **84**, 177
membership, **83**, 104
BRITISH ASSOCIATION NEWS:
Annual Meeting, **88**, 587
Area Committees, **88**, 588
Central Lecture Service, **88**, 590
Junior Meetings,
Birmingham, **83**, 102
Cardiff, **83**, 102
Tayside, **86**, 377
National Froebel Foundation, **88**, 589
Science fairs,
Aberdeen, **86**, 377
West Midlands, **86**, 377
Teacher Training Colleges, **83**, 103, **88**, 590
Visual Aids, **88**, 591
West Midlands branch, **83**, 101, **86**, 377, **88**, 588
British National Parks, Prof. H. C. Darby, **86**, 307, **87**, 454
BROCKWAY, Dr. J. M., Energy expenditure of the ewe during pregnancy and parturition, **87**, 464*
BROWN, Dr. E. H., Origins of Highland Britain, **87**, 456*
BROWN, J. S., Comparison between the plankton found in inner and outer harbours at Fraserburgh, **87**, 479*
BROWN, Dr. P. E., How old is Scotland, **87**, 446, **88**, 520
BROWNSEY, C. M., Noise from electrical plant, **87**, 442*
BRUNTON, J. S., Trends in secondary education in Scotland, **87**, 473*
BUCHANAN, Dr. R. H., Tradition in Ulster, **87**, 461*
BURGESS, I. C., Calcifolium from lower limestone group in W. of Scotland, **87**, 448*
BURT, Dr. J. R., Biochemical basis of fish odour and flavour, **87**, 463*
BUSBRIDGE, W. G., Application of radiation in industry, **84**, 149
BYWATERS, Prof. E. G. L., Present-day knowledge of rheumatic diseases, **84**, 161

CAIRD, Dr. J. B., New population map of Scotland and its value in regional planning, **87**, 454*
CALDER, James R., Analysis of stammering in terms of learning theory, **87**, 467*
CALDER, Prof. P. Ritchie, Man and his fellow-lodgers: a question of co-existence, **87**, 453*
CAMPBELL, Matthew, Historical aspects of the recommendations made by the Taylor Commission, **87**, 482*
Carboniferous rocks of Midland Valley of Scotland, I. C. Burgess, A Davies, J. T. Greensmith, G. I. Lumsden, G. H. Mitchell and W. Mykura, **87**, 447*
CARRUTHERS, R., The new superconductors and electrical engineering, **87**, 459*
CARTER, C. F., Problems of economic growth, **86**, 289, **87**, 458
CARTWRIGHT, Dr. M. L., Non-linear differential equations: oscillations and stability properties, **87**, 443*
Cells and embryos, Dr. E. N. Willmer, **84**, 119
CHAPMAN, D. R., Flammability problems in textiles, **87**, 444*
Chemical constitution, colour and, Dr. J. N. Murrell, **87**, 445, **88**, 489
Chemical structure, physical approach to, Prof. J. Monteath Robertson, **85**, 214, **87**, 444
Chemotherapy, approaches to through natural products, Dr. G. A. Snow, **85**, 259
Christian faith, moral scepticism and, Rev. Prof. John M. Graham, **88**, 583
CHRISTIE, J. G., Discussion on what young engineers think of their training, **87**, 459*
Chromatography, F. D. Hartley, J. H. Knox, D. L. Mould and R. L. Synge, **87**, 444*
CLARK, D., Pumped storage in electricity supply, **87**, 460*
Clinical medicine, contribution of to physiology, Prof. J. McMichael, **85**, 254, **87**, 462
COCKCROFT, Sir John, Sociological study of higher education: discussion, **87**, 477*
COLCLOUGH, W. A., Town planning in Aberdeen, **87**, 479*
COLE, Dr. J. P., New towns in tropical South America, **87**, 478*
Colour and chemical constitution, Dr. J. N. Murrell, **87**, 445, **88**, 489
COLQUHOUN, Dr. W. P., Alcohol and motion-sickness drugs: some interactive effects on performance, **87**, 467*
COMMON, Dr. R., Water in Northern Ireland, **87**, 457*
Computers in botanical studies, A. S. Gardiner, J. N. R. Jeffers, and W. T. Williams, **87**, 469, 470*
automation in taxonomy, P. H. A. Sneath, **87**, 470, **88**, 572
Connective tissues, aminopolysaccharide-protein complexes of, Dr. A. G. Lloyd, **83**, 35
COOPER, Miss J., Alcoholism and crime: study of the drinking and criminal habits of fifty discharged persons, **87**, 468*
CORNER, E. J. H., The tropical botanist, **86**, 328, **87**, 469
COWEY, Dr. Alan, Sensory and perceptual measurements in animals **87**, 466*
Criminology, social and psychological aspects, F. H. McLintock, J. P. Martin, W. R. Price and A. Straker, **87**, 465*
CRONE, G. R., Maps for national development, **84**, 154

CROOKE, Dr. W. M., Cation-exchange capacity of roots in relation to mineral composition of the plant, **87**, 475*
CULLINGWORTH, J. Barry, Social implications of urban renewal, **87**, 478*
CURTIS, C. D., Crystal field theory and behaviour of transition elements during magmatic differentiation, **87**, 448*
CUSICK, Dr. F., Morphogenesis of an internode, **87**, 469*
CUTTING, Dr. C. L., Historical background of the fishing industry, **87**, 476*

DAICHES, Prof. David, University curriculum and idea of the unity of knowledge, **84**, 128
DARBY, Prof. H. C., British National Parks, **86**, 307, **87**, 454
DARLING, Dr. F. Fraser, ecology of Scottish Highlands: conclusion, **87**, 481*
unity of ecology, **86**, 297, **87**, 450
DARNLEY, Dr. A. G., Uranium-thorium-lead-isotope ratios as an aid to mineral exploration, **87**, 446*
Darwin Lecture by Dr. L. Wolpert on *Growing in a definite shape*, **87**, 453*
DAVIDSON, Dr. Hilda R. Ellis, Folklore and man's past, **87**, 460*
DAVIES, A., Recent work in Carboniferous of Douglas, Sanquhar and Thornhill, **87**, 447*
Decision-making, sociology of, R. Frankenberg, W. J. M. Mackenzie and M. Southwold, **87**, 478*
Diagenesis, aspects of, Prof. J. H. Taylor, **87**, 417, 447
DICKSON, J. A., Fort William pulp mill—problems of supply, **87**, 471*
DINWOODIE, Dr. J. M., Home-grown softwoods as raw material for pulping, **87**, 471*
DODSWORTH, Dr. T. L., Feeding systems based upon bulky farm produced food, **87**, 474*
Dounreay, J. R. Atkinson, J. L. Phillips and D. C. G. Smith, **87**, 441*
DOWNIE, G., Determination of mineralogy of fine-grained rocks by electron microscope, **87**, 447*
Drugs and behaviour, W. P. Colquhoun, A. R. King and D. Legge, **87**, 466*
DUNCAN, Peter, Social structure of the trawler, **87**, 476*
DUNHAM, Prof. K. C., Radiometric dating of rocks—summing up, **87**, 447*
DWYER, Dr. D. J., Tsuen Wan, a new industrial town in Hong Kong, **87**, 478*

EARL, Q. S., Natural tempo and key in locally associated plants and animals, **87**, 450*
Ecology, C. K. Ricardo and G. C. L. Bertram, Q. S. Earl, J. B. Gillett, P. A. Jewell and V. P. W. Lowe, **87**, 450*
unity of, Dr. F. Fraser Darling, **86**, 297, **87**, 450
Economic development, role of international trade, Dr. Shu-Chin Yang, **87**, 457*
growth, problems of, C. F. Carter, **86**, 289, **87**, 458
Economics, language of, Dr. J. K. Galbraith, **83**, 21
EDELMAN, Dr. J., Polysaccharides and their enzymes, **87**, 469*
EDINBURGH, Duke of, Impact of science on the human community, **86**, 287
Education, personal values in, Sir Charles Morris, **85**, 227, **87**, 472
EDWARDS, M. V., Highland forestry as a modern method of vegetation management, **87**, 482*
ELDER, H. Y., Biological effects of water utilisation by hydro-electric schemes, **87**, 453*
EVANS, C. R., Geochronology of Lewisian basement complex near Lochinver, **87**, 446*
EVANS, Dr. G., Recent sedimentology of the Persian Gulf, **87**, 450*
EYSENCK, Prof. H. J., Causes and cures of neuroses, **87**, 465*
personality and the nervous system, **87**, 463*

FAIRHURST, Dr. H., Depopulated settlements in the Scottish Highlands, **87**, 454*
Fish, biochemistry of, J. R. Burt, L. R. Fisher, R. M. Love, R. Peters and M. E. Varley, **87**, 462*
and hydro-electric schemes, P. L. Aitken, H. Y. Elder, N. G. Lethlean and K. A. Pyefinch, **87**, 453*
nutrition of, M. E. Varley, **87**, 462, **88**, 497
FISHER, Dr. L. R., Characteristic pigments of marine animals, **87**, 463*
FISHER, Prof. W. B., Nomadism and its social and political effects in the Middle East, **87**, 455*
Fishing industry and communities, C. L. Cutting, P. Duncan, H. W. Horobin and G. A. Reay, **87**, 476*
Forest zoology, J. P. Grant and J. T. Stoakley, **87**, 471*
FORREST, Dr. J. S., High-voltage insulation, **86**, 319, **87**, 440
FRANKEL, Dr. T. H., Fort William project, **87**, 471*
FRANKENBERG, Dr. Ronald, Handling of conflict in decision-making groups: village and nation, **87**, 478*
FRASER, A. I., Wind tunnel and other related studies on coniferous trees and tree crops, **87**, 472*
FRASER, Dr. Elizabeth, Perceptual changes under mescalin and L.S.D., **87**, 468*
Free radicals, Alan Beckett, **84**, 143
FRENCH, R. A., Making of the Russian landscape, **83**, 44
FRIEND, Dr. P. F., Old Red Sandstone unconformities at the Highland boundary in Arran, **87**, 446*

GADD, Dr. G. E., Mechanism of swimming, **87**, 442*
GADDUM, Dr. J. H., Types of pesticide, **87**, 463*
GALBRAITH, Dr. J. K., Language of economics, **83**, 21
GALE, Prof. E. F., The bacterial cell, **87**, 451*
GAMBLE, Dr. David P., New urban communities in Sierra Leone, **87**, 477*
GANDY, Dr. R. O., Problems of infinite sets, **87**, 443*
GARDINER, A. S., Tree recognition by computer, **87**, 470*
Geochemistry, advances in, L. H. Ahrens, T. W. Bloxam, C. D. Curtis, G. D. Nicholls and G. Thompson, **87**, 448*
Geology, teaching of, Prof. T. N. George, **88**, 546
Geomorphology in Britain, E. H. Brown, T. N. George, W. G. Jardine, W. Kirk, S. B. McCann, J. B. Sissons, F. N. Synge, **87**, 456*
GEORGE, Prof. T. N., Geology, teaching of, **88**, 546
geomorphology of western Scotland, **87**, 456*
GILLETT, J. B., Effect of animal evolution on that of plants, with especial reference to speciation, **87**, 450*
GIMINGHAM, Dr. C. H., Composition of vegetation and its balance with the environment, **87**, 481*
GIRDWOOD, Prof. R. H., Physiology of blood formation, **87**, 482*
GRAHAM, Rev. Prof. John M., Moral scepticism and Christian faith, **88**, 583
Granada Lectures on *Language of economics* by Dr. J. K. Galbraith, **83**, 21
Making philosophy intelligible by Prof. A. J. Ayer, **87**, 406
Universities and the nation's crisis by Prof. P. M. S. Blackett, **87**, 379
GRANT, E. G., Observations on changing economy of a selected area of Western Highlands, **87**, 479*
GRANT, Col. J. P., Red deer and their control, **87**, 471*
GRASSIE, Dr. N., Degradation of polymers, **87**, 444*
GRAY, Malcolm, Place of fishing in the economy of the north-west, **87**, 482*
GREEN, Dr. F. H. W., Climate in the Scottish Uplands, **87**, 481*
GREENSMITH, Dr. J. T., Calciferous sandstone sedimentation in Fife and Lothians, **87**, 448*
GRIEVE, Robert, Regional planning in Scotland, **87**, 479, **88**, 516
Growth, price of, Prof. T. Wilson, **85**, 245, **87**, 458
GURR, P. R., Lower Old Red Sandstone of Lorne Cuvette, **87**, 446*

HAMILTON, Dr. E., Geochronology of N. Rhodesia, **87**, 447*
HAMILTON, Prof. H., Distilling industry, **87**, 458*
HARLAND, W. B., Old Red Sandstone unconformities at the Highland boundary in Arran, **87**, 446*
HARLEY, Dr. J. L., Ectotrophic mycorrhizas, **87**, 468*
HARRIES, D. A., Modern aspects of rock drilling, **87**, 460*
HARTLEY, F. D., Separating large molecules by chromatography, **87**, 445*
HEATHCOTE, R. L., Conservation or opportune use? Pastoralist's problem in semi-arid Australia, **87**, 455*
HENDERSON, H. S., Scots folksong today, **87**, 462*
HERBERG, Dr. L. J., Brain mechanisms and motivation, **87**, 466*
HEYWOOD, J., Expansion of higher technological education, **87**, 477*
High polymers, S. Baxter, D. R. Chapman and N. Grassie, **87**, 444*
High-voltage insulation, Dr. J. S. Forrest, **86**, 319, **87**, 440
Higher education, sociological study of, J. Cockcroft, J. Heywood, A. N. Little and J. G. H. Newfield, **87**, 477*
HOLLIDAY, L., Interaction of technologies, **83**, 5
HOOKER, Dr. S. G., Future of the aeroplane in civil and military fields, **85**, 219, **87**, 458
HOROBIN, G. W., Work and social life of Hull fishermen, **87**, 476*
HUDSON, Dr. J. D., Old Red Sandstone unconformities at the Highland boundary in Arran, **87**, 446*
HUMPHRIES, Dr. E. C., The root system: absorption of ions and their distribution in the plant, **87**, 475*
HUNTER, Dr. R. F., Social behaviour and grazing management in hill sheep, **87**, 481*
HUTCHINGS, W. D., Science, technology and the sixth form, **87**, 473*
HUTCHINSON, Prof. Sir Joseph, Work of the botanist, **83**, 78
Hydro-electric schemes, *see* fish and, **87**, 453*
HYTTEN, Dr. F. E., Changes in maternal body composition in pregnancy, **87**, 464*

ILLSLEY, Dr. Raymond, Demographic factors affecting the marital relationship, **84**, 168
social selection and individual fate, **87**, 476*
Industrial noise, C. M. Brownsey, A. J. King and J. D. Voce, **87**, 441*
INNES, Dr. George, Social factors in mental illness, **87**, 477*
Investment in man, Sir Eric Ashby, **85**, 203

JARDINE, Dr. W. G., Post-glacial sea-levels in S.W. Scotland, **87**, 456*
JEFFERS, J. N. R., Tree recognition by computer, **87**, 470*
JEWELL, Dr. P. A., Feral sheep on island of St. Kilda, **87**, 451*
JOHNSON-MARSHALL, P., The city of tomorrow, **87**, 478*
JONES, G., Factors affecting the supply of engineers, **87**, 459*
stereotypes and occupational choice, **87**, 465*

JONES, Prof. Martin, Providing food for man and beast, **86**, 367, **87**, 474
JONES, M. H., Radiation levels in granite structure of Aberdeen and district, **87**, 479*
JONES, Prof. R. V., Design of instruments, **87**, 440*
Lyon Playfair, **87**, 480*
science and the state, **87**, 393
JUNIPER, Dr. B. E., Structure and organisation in plant cells under the electron microscope, **87**, 469*

Kelvin Lecture on *Colour and chemical constitution* by Dr. J. N. Murrell, **87**, 445, **88**, 489
KENNA, J. C., Isolation and the experience of time, **87**, 468*
KINGAID, J. C., Social selection and individual fate, **87**, 476*
KING, Dr. A. J., Industrial noise, **87**, 441*
KING, A. R., Effects of drugs on the maze performance of rats in varying conditions of sensory stimulation, **87**, 466*
KING-HELE, D. G., Space trajectories, **83**, 65
KIRK, W., Late-glacial site at Loch Droma, Scotland, **87**, 456*
KNOX, Dr. J. H., Gas chromatography, **87**, 445*

LAI, D., Tsuen Wan, a new industrial town in Hong Kong, **87**, 478*
LAIRD, Dr. M., Zoologists and world health, **87**, 452*
Land use in the Scottish uplands:
Lord Lovat, H. A. Moisley and J. Robertson, **87**, 480*
beneficent forest, H. M. Steven, **86**, 345, **87**, 472, 480
ecology, F. Fraser Darling, C. H. Gimingham, F. H. W. Green, I. A. Nicholson and P. L. Pearson, **87**, 481*
land management, ecological consequences of, M. V. Edwards, R. F. Hunter, G. R. Miller and V. C. Wynne-Edwards, **87**, 481*
sociological aspects, M. Campbell, M. Gray and R. Urquhart, **87**, 482*
LAPIN, Dr. P., Work of botanical gardens on cultivation of decorative plants native to the U.S.S.R. flora, **87**, 469*
LAW, G. R., Subsurface geology of Aberdeen area, **87**, 449*
LAWRIE, J., Hugh Miller—geologist and man of letters, **87**, 449*
LEAKE, Dr. Chauncey D., Gold Rush doc: account of British Association's first recipient of a research grant, **87**, 480*
Learning, J. R. Calder, R. Mitchell, R. L. Reid and J. Taylor, **87**, 467*
LEGGE, D., Differential effects of drugs on human behaviour, **87**, 466*
LETHLEAN, N. G., Instrumentation of fish ladders and passes, **87**, 453*
LEWIS, Dr. T. J., Electrical breakdown and conduction in liquid dielectrics, **87**, 440, **88**, 501
Lichens, recent studies of, G. D. Scott, D. C. Smith, T. D. V. Swinscow and J. H. Tallis, **87**, 470*
Liquid dielectrics, electrical breakdown and conduction in, Dr. T. J. Lewis, **87**, 440, **88**, 501
Lister Lectures on *Making of the Russian landscape*, by R. A. French, **83**, 44
Science and morals in the treatment of deviant behaviour by Dr. T. P. Morris, **87**, 475*
LITTLE, Dr. A. N., Sociological study of higher education, **87**, 477*
LITTLE, Dr. Kenneth, Significance of voluntary associations for studies of social change, **87**, 478*
LLOYD, Dr. A. G., Aminopolysaccharide-protein complexes of the connective tissues, **83**, 35
Local archaeology, W. D. Simpson, **87**, 460*
prehistoric origins in N. Scotland, A. A. Woodham, **87**, 460, **88**, 540
LONGHURST, Dr. A. R., Tropical fisheries resources, **87**, 451*
LONGUET-HIGGINS, Dr. M. S., Mathematical toys, **87**, 443*
LOOKING AT SCIENCE:
audio-visual aids in education, **86**, 374
biology, list of films, **85**, 284
Derby secondary schools, visual aids in, **83**, 105
film catalogues, **85**, 285, **88**, 596
wall charts, **85**, 376
LOVAT, Lord, Land use in the Scottish uplands: introduction, **87**, 480*
LOVE, Dr. R. M., Problems associated with low-temperature preservation of fish, **87**, 462*
LOWE, V. P. W., Red deer conservation in Scotland, **87**, 450*
LUBBOCK, D. M., Freedom from Hunger Campaign: a contribution to world basic needs, **87**, 474*
LUMSDEN, G. I., Recent work in Carboniferous of Douglas, Sanquhar and Thornhill, **87**, 447*

MCCANN, Dr. S. B., Raised beaches in Lewis and Sutherland, **87**, 457*
MACGREGOR, Prof. A. G., Clinical exploration of thyroid physiology, **87**, 462*
MCILRAITH, Dr. A. H., Application of diffraction gratings to linear and angular measurement, **87**, 440*
MACINNES, J., Scottish Gaelic song tradition, **87**, 461*
MCINTOSH, Dr. D. M., Recent investigations by Scottish Council for Research in Education, **87**, 465*
MACKENZIE, Dr. R. C., Clay minerals—their chemistry and significance in soils, **87**, 445*
methods of mineralogical examination of argillaceous rocks, **87**, 447*
MACKENZIE, Prof. W. J. M., Study of decision-making as a form of co-operation in social sciences: community power studies, **87**, 478*
MACKIE, Maitland, Jr., Feeding systems in the beef industry: discussion, **87**, 474*
MACKLON, Dr. A. E. S., Relative effects of soil and atmospheric drought on water balance of plants, **87**, 471*
MCLINTOCK, F. H., Criminological aspects of violent behaviour **87**, 465*
MCMICHAEL, Prof. J., Contribution of clinical medicine to physiology, **85**, 254, **87**, 462
Making philosophy intelligible, Prof. A. J. Ayer, **87**, 406
MALCOLM, Prof. J. L., Nature of nerves, **87**, 463*
Maps for national development, G. M. Crone, **84**, 154
Marital relationship, demographic factors affecting the, Barbara Thompson and Dr. Raymond Illsley, **84**, 168
MARTIN, Dr. J. P., Sociological aspects of conviction, **87**, 465*
MASKELL, E. C., Vortices, **87**, 444*
MAULE, Dr. H. G., Alcoholism and crime: study of drinking and criminal habits of fifty discharged persons, **87**, 468*
MAYNEORD, Prof. W. V., Background radiations and their origins, **87**, 452*
Medical sociology, D. Baird, B. B. Bernstein, R. Illsley, G. Innes, J. C. Kincaid and I. Richardson, **87**, 476*
